

1. Entity Relationship (ER) Diagram

Relational data schema showing User Profiles, Learning Stages, Lessons, Steps, Practice Tasks, and Emergency Alert Records.

Digital Sathi - Entity Relationship (ER) Diagram

Data Models, Relationships & Relational Schema

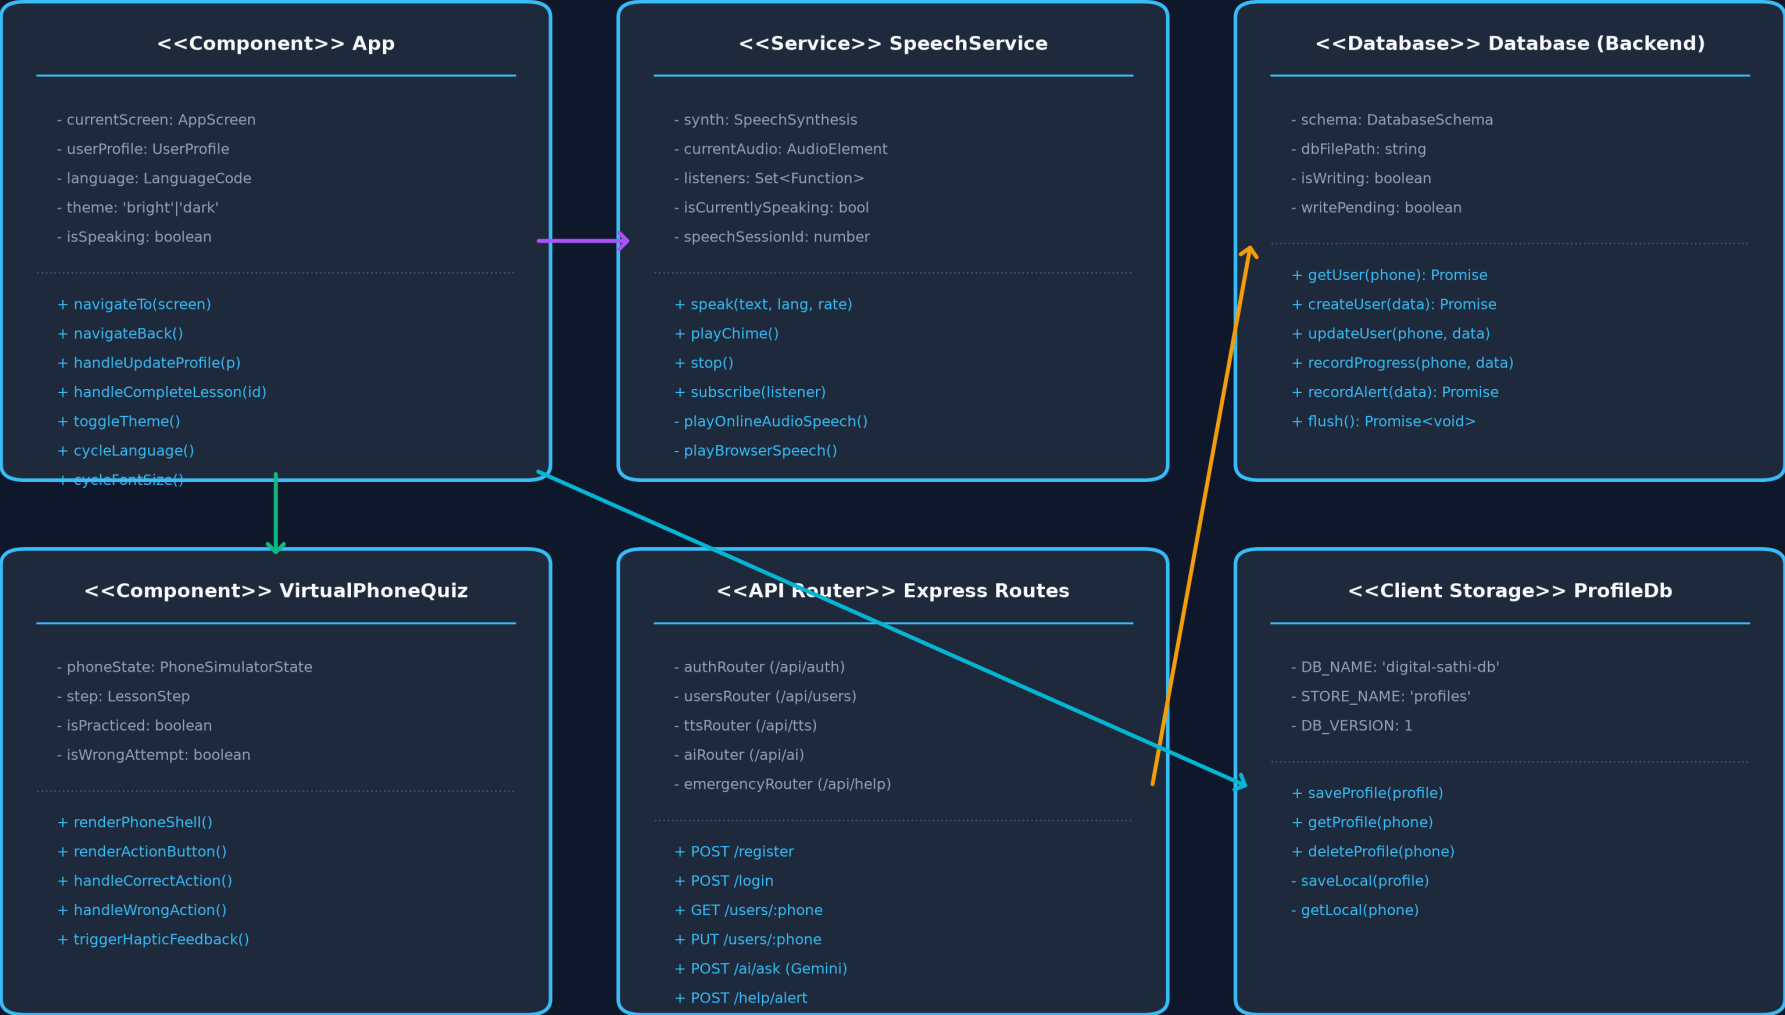

2. Object-Oriented Class Diagram

Component architecture, State models, Speech service classes, Express API handlers, and Database persistent storage.

Digital Sathi - Object-Oriented Class Diagram

Frontend React Controllers, Backend Database, & Speech Services

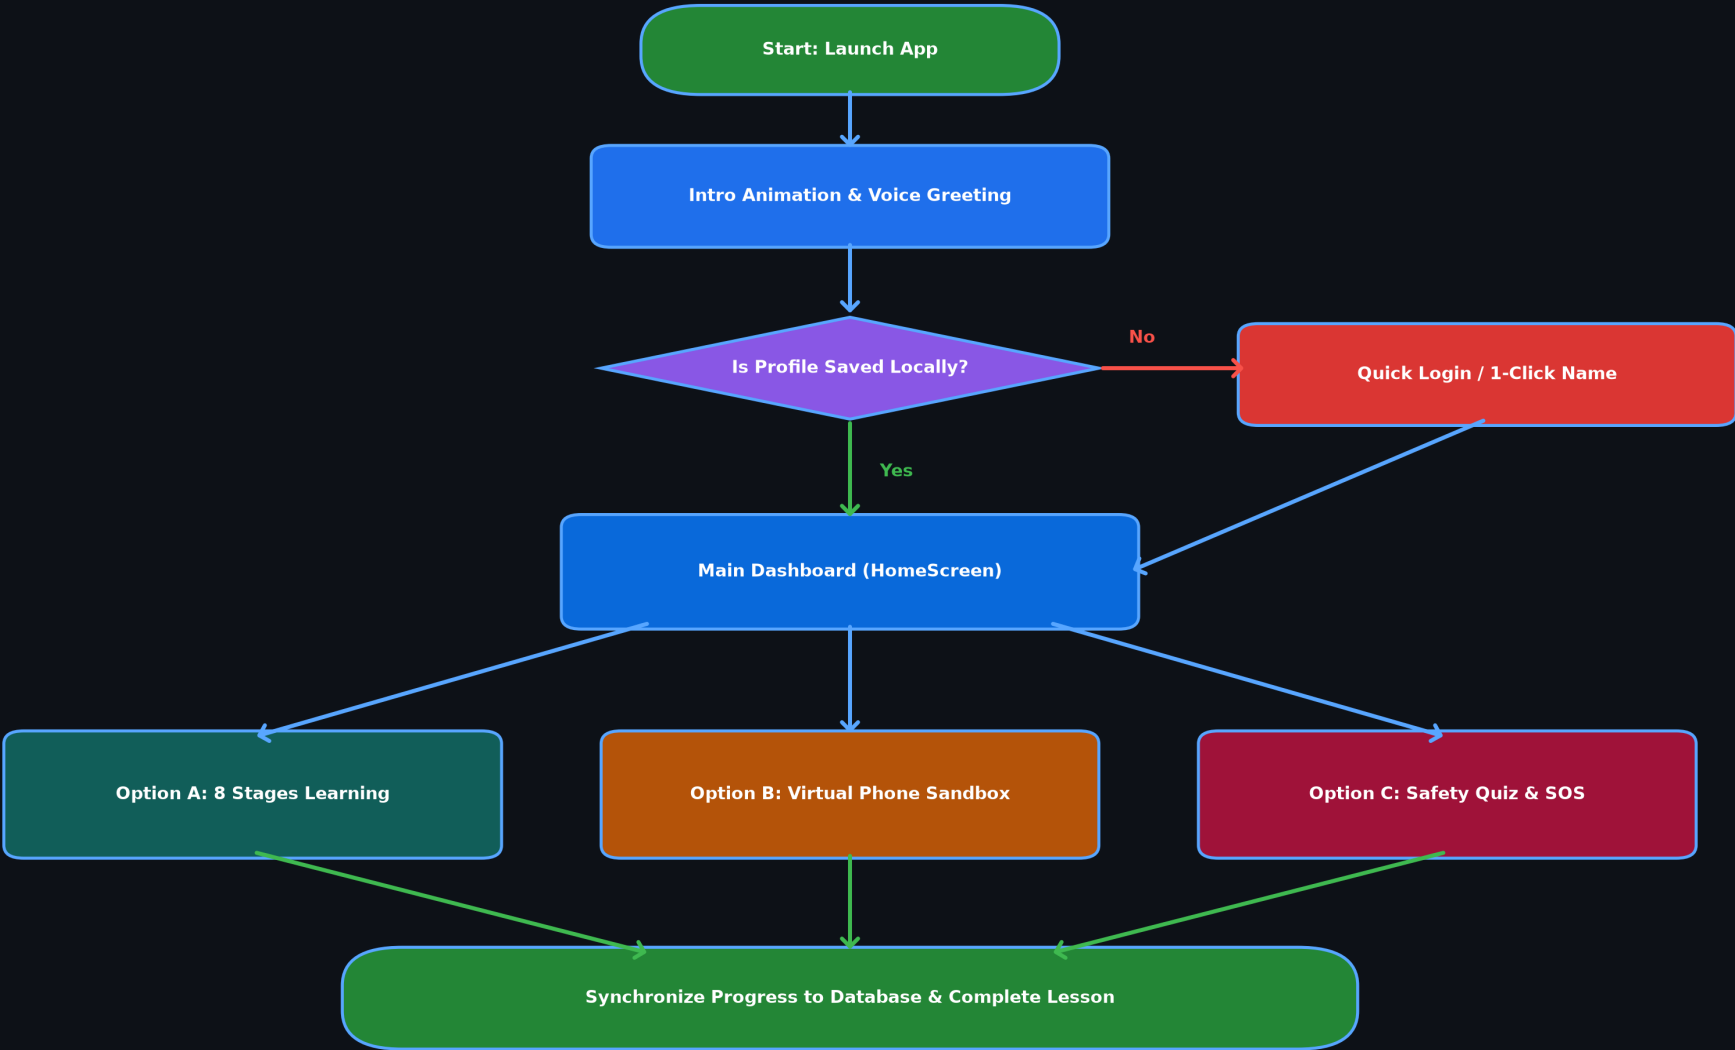

3. System User Flow Chart

Step-by-step navigation roadmap from Intro Video onboarding, Language selection, Home Dashboard, to Sandbox & SOS.

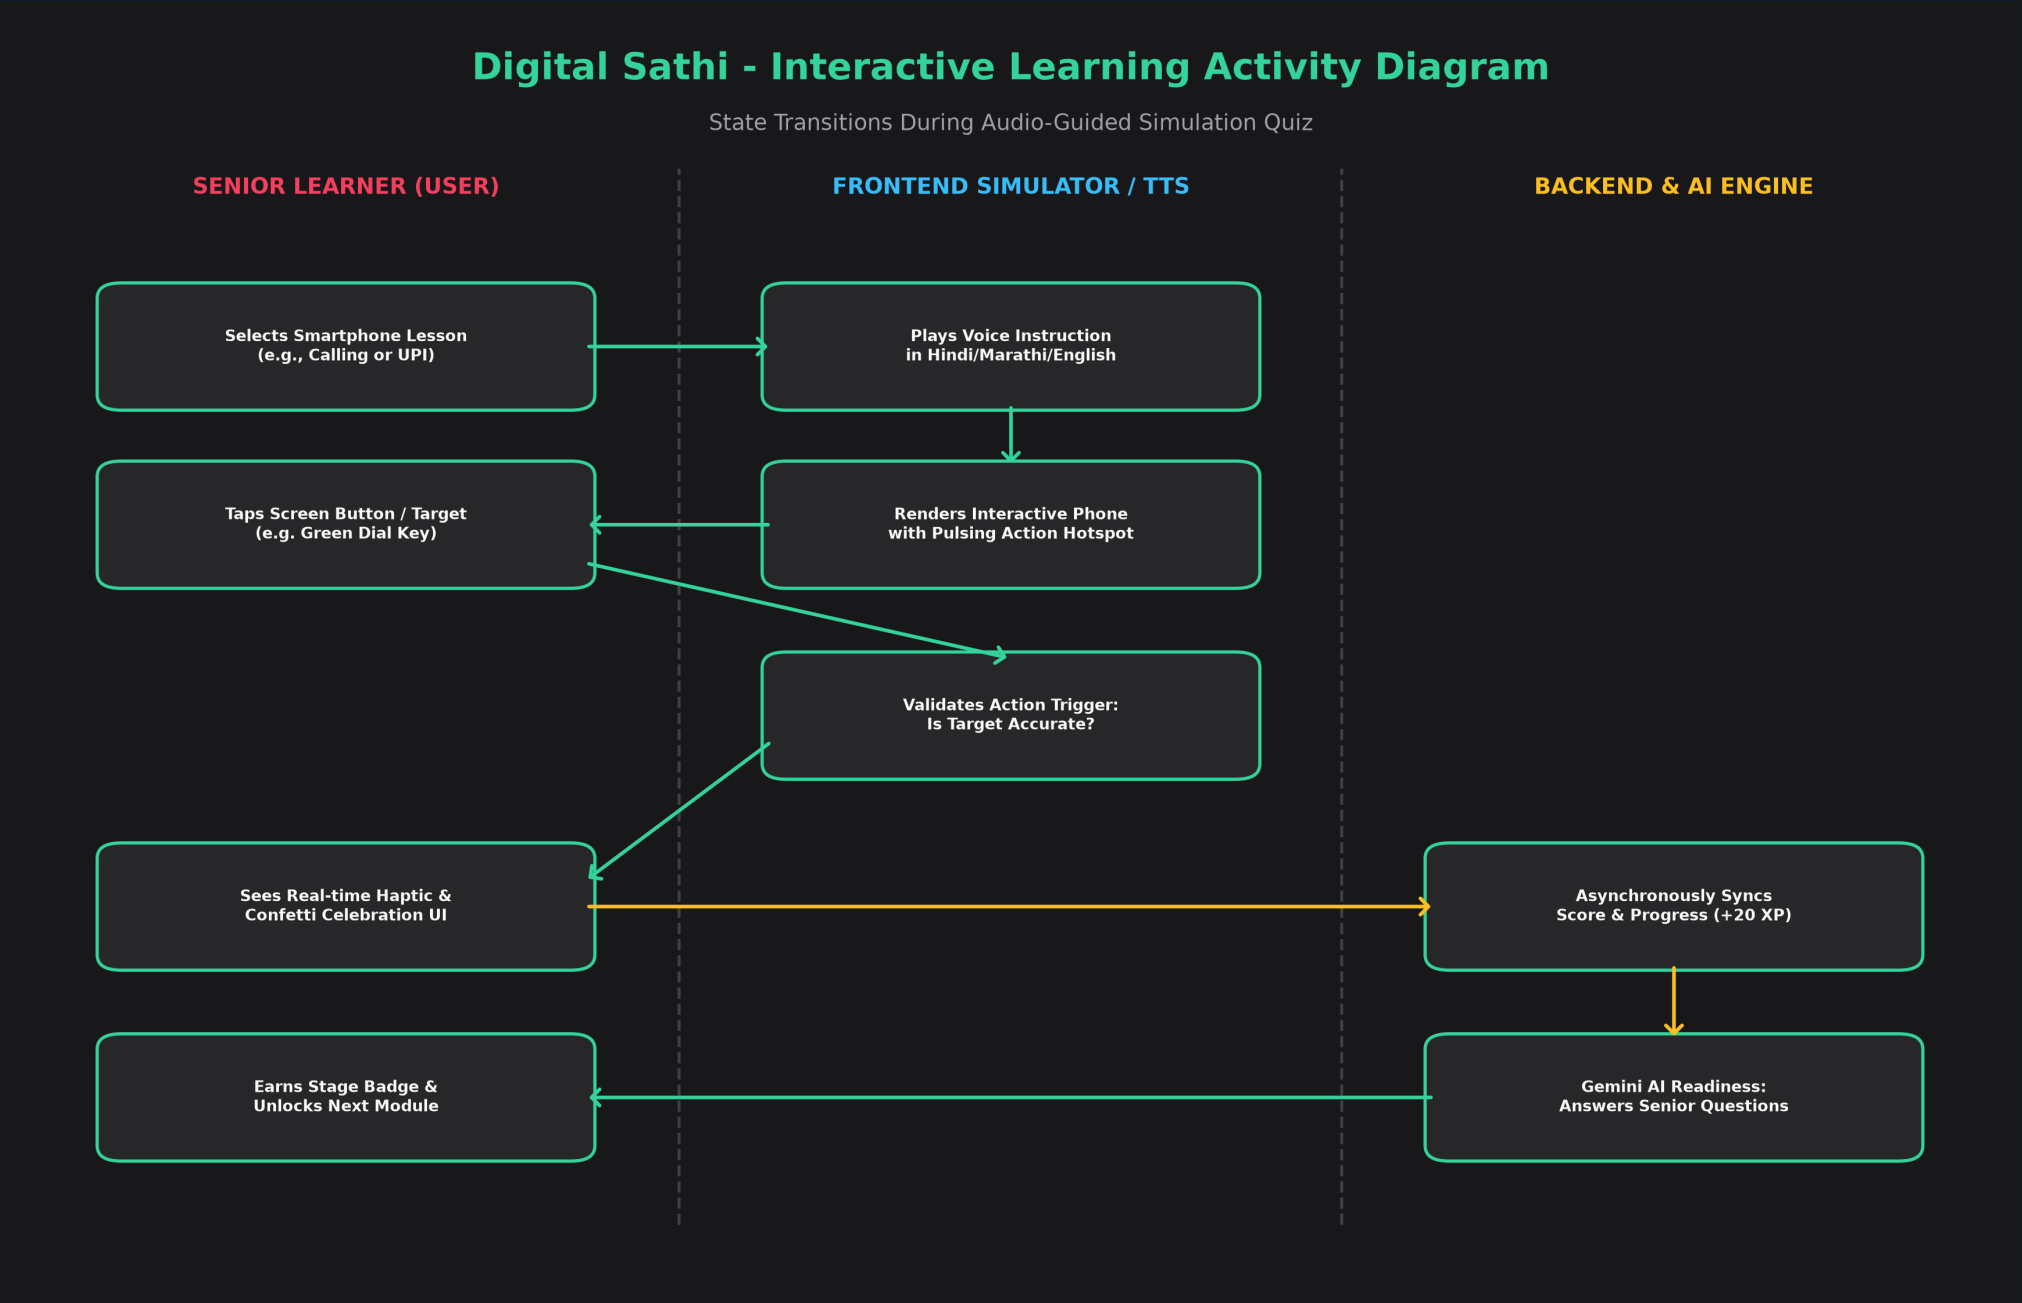

Digital Sathi - System User Flow Chart

Senior User Journey from Launch to Interactive Smartphone Mastery

4. Interactive Learning Activity Diagram

Swimlane activity workflows illustrating user touch interactions, live audio narration, haptic feedback, and cloud score updates.

5. End-to-End System Sequence Diagram

Message exchange and lifecycle flow between Senior User, React UI, Audio Speech Engine, Express Server, and Persistent Database.
